

### **Wireless Emergency Call Double Buttons**

Through superior range and reliability, these wireless buttons offer virtually limitless opportunities for real world applications. They are water resistant and lightweight. These compact buttons can be carried or worn on a necklace, wristband or belt-clip. The transmitters are fully supervised to ensure reliability. They have a one-second, press-and-hold activation with an LED flash to acknowledge activation. The two button design provides protection against accidental activation. Both buttons must be pressed simultaneously to initiate an alarm transmission.

### **Key Features**

- LED flashes with all transmissions, ensuring operation at a glance
- Double-button activation
- Fully supervised

### **Technical Specs**

Dimensions:	2.2 x 1.9 x 0.72"
Weight:	1.4 oz
Operating Environment:	32° to 140°F up to 90% relative humidity (non condensing)
Battery:	3.0V Lithium Battery
Battery Life:	1 to 2 years
