

WAVE System Specifications

Repeater (item # REP)

This high power repeater is a range expander for the WAVE system. It intelligently amplifies transmissions from any compatible wireless transmitter while ignoring background noise. It is perfect for large facilities such as multi-floor buildings, multi-building sites, shopping malls, campuses and other open-air installations. Virtually any number of repeaters can be added to a system, scaling the system size as needed.

The repeater includes an integrated, lithium-ion, back-up battery.

Key Features

- Includes backup battery
- No wires other than a 110 VAC outlet needed
- No programming needed
- Self configuring
- Case tamper protection

Technical Specs

Dimensions:	6.5 x 3.5 x 1.0"
Weight:	8 oz
Power Requirements:	12-16.5 VAC or VDC (transformer included)
Back-up Battery:	Lithium Ion
Operating Environment:	-4° to 140°F up to 90% relative humidity (non condensing)
