

# *WAVE System Specifications*

## **Wireless Universal Transmitter**

These wireless transmitters offer superior range and reliability and are fully supervised to ensure reliability. They can be used with any standard normally open or normally closed contact (15 msec duration) or sensor to connect the WAVE system to external devices. Universal transmitters offer an easy way to integrate the WAVE with any type of sensor, access control system or any other type of security system.

## **Key Features**

- For use with almost any standard NO/NC contact
- Includes case tamper protection
- Fully supervised

## **Technical Specs**

Dimensions:	3.5 x 1.7 x 0.9"
Weight:	3 oz
Operating Environment:	-4° to 140°F up to 90% relative humidity (non condensing)
Battery:	3.0V Lithium Battery
Battery Life:	2 to 5 years
