

WAVE System Specifications

WAVE Control Panel (item # WAVE5-WAVE100+)

The WAVE control panel is the interface between the wireless sensors and your radio network. The WAVE is compatible with any radio frequency. Alarm messages and system configurations are easy to change using a menu driven plain English LCD display. The WAVE has a battery back-up in case of a power failure.

Key Features

- Includes backup battery
- No wires other than a 110 VAC outlet needed
- System is armed with a key switch
- Control panel is locked with a key for security

Technical Specs

Dimensions:

Height 10 ⁵/₈ inches
Width 14 ³/₈ inches
Depth 4 ³/₄ inches

Weight:

18 lbs

Power Requirements:

18 VAC (transformer included)

Back-up Battery:

Non-Spillable Sealed Lead Acid Battery, 12 V

Operating Environment:

-4° to 140°F up to 90% relative humidity (non condensing)
